## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/12/2010 has been entered.

2. Claims 1-13 are currently pending and have been fully considered.

3. The 35 U.S.C. 103(a) rejections of claims 1-12 presented in the office action dated 8/11/2009 are withdrawn. Claims 1-12 are now in condition for allowance.

## **EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Guy Yonay on 1/27/2010.

5. Please amend the application as follows:

Art Unit: 1795

- Claim 1, Line 12: After the word “regions” insert the phrase "wherein the shading elements include arrays of pixels, each array extending across one of the regions".
- Delete claim 13.

***Allowable Subject Matter***

6. The following is an examiner’s statement of reasons for allowance:

Claims 1-12 are now in condition for allowance because the prior art of record does not teach or suggest a method for compensating for critical dimension variations comprising the use of laser radiation as recited in claim 1. Specifically, the prior art of record does not teach or suggest the use of laser radiation to form shading elements within a photomask substrate in regions which correlate to regions of the wafer exposure field wherein the shading elements form correction patterns across correlating regions wherein the shading elements include arrays of pixels, each array extending across one of the regions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 1795

- ZAIT et al. (US 2005/0084767) disclose a method of repairing a photomask using an ultra-short pulsed laser beam.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to STEWART A. FRASER whose telephone number is (571)270-5126. The examiner can normally be reached on Monday to Thursday 6:30 am to 3:30 pm EST.
